ABOUT

I am a student seeking an internship opportunity to apply and enhance my skills. I have a strong foundation in programming, having built small projects like a Hangman game and a Number Guessing game. In addition to my coding projects, I am also familiar with networking concepts and basic network configurations. I am eager to learn, work in a team environment, and contribute my knowledge while gaining valuable hands-on experience in the industry.

TECHNICAL SKILL

Languages:-

- Java
- C/C++
- SQL
- PHP

Tools:-

- VS code
- Android Studio
- Microsoft Word
- Github

Other:-

- Computer Networks
- System calls/commands
